The key for UNIVERSE is as follows:

- R = Resident population
- P = Resident population plus Armed Forces overseas
- H = Household population
- C = Civilian population
- N = Civilian noninstitutionalized population

The key for MONTH is as follows:

- 1 = January
- 2 = February
- 3 = March
- 4 = April
- 4.1 = April 1, 2010 census
- 4.2 = April 1, 2010 estimates base
- 5 = May
- 6 = June
- 7 = July

8 = August

9 = September

10 = October

11 = November

12 = December

AGE is single year of age (0, 1, 2, ...99, 100+) and 999 is used to indicate total population.

Notes: The estimates are based on the 2010 Census and were created without incorporation or consideration of the 2020 Census results. The estimates add births to, subtract deaths from, and add net migration to the enumerated resident population from the 2010 Census. The enumerated resident population is the total population (citizen and noncitizen) with usual residence in the 50 states and the District of Columbia. See

https://www.census.gov/glossary/#term_Apportionmentpopulation and

https://www.census.gov/glossary/#term_Residentpopulation. The estimates reflect changes to the April 1, 2010 population due to the Count Question Resolution program and geographic program revisions. All geographic boundaries for the 2020 population estimates series are as of January 1, 2020. For population estimates methodology statements, see <https://www.census.gov/programs-surveys/popest/technical-documentation/methodology.html>.

"In combination" means in combination with one or more other races. The sum of the five race groups adds to more than the total population because individuals may report more than one race. Hispanic origin is considered an ethnicity, not a race. Hispanics may be of any race. Responses of "Some Other Race" from the 2010 Census are modified. This results in differences between the population for specific race categories shown for the 2010 Census population in this file versus those in the original 2010 Census data. For more information, see

<https://www2.census.gov/programs-surveys/popest/technical-documentation/methodology/modified-race-summary-file-method/mrsf2010.pdf>

The 2010 Census did not ascertain the military status of the household population. Therefore, variables for the 2010 Census civilian, civilian noninstitutionalized, and resident population plus Armed Forces overseas populations cannot be derived and are not available on these files.
